DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20 and 29 are rejected under 35 U.S.C. 102(b) as being anticipated by Higuchi et al.

Higuchi et al., U.S. Patent No. 5311500, discloses a substrate with a moisture barrier. As shown in figure 2, substrate 1 has at least one edge. A first dielectric material 2 is disposed on at least a portion of the substrate. A barrier structure 5a is formed on the dielectric layer proximate to the edge of the substrate.

Allowable Subject Matter

Claims 21 – 28 and 30 – 34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
